

Command Simulation Training

The Massachusetts Firefighting Academy is pleased to announce the availability of a new mobile Command Simulation Training Program. Utilizing state-of-the-art computer based simulation technology, students are able to rehearse emergency responses using the same systems and knowledge of command and control (ICS) as they would use during an actual event. Designed for front-line Supervisors and Company Officers, the Simulation Training will include a review of the following topics:

- Scene Size-up
- NIMS / ICS
- Tactics and Strategy
- Accountability

Training will be presented on a Priority-Select basis. Interested student are **required** to submit a standard MFA Student Application. Please indicate which training program you are applying for.

Program #1
